

ICAI CA EXAM EVALUATION - PERSISTENCE TEST

Test Run Timestamp: 2026-09-30T11:19:26.564Z

This document validates:

1. Pure Firebase Cloud Storage binary persistence (no Firestore chunking)
2. Firestore metadata synchronization (/file_storage_metadata)
3. Bit-for-bit SHA-256 integrity verification across cold restarts
4. Zero public exposure (storage.rules default-deny, server-side RBAC only)
